INSTALLATION:

Bobrick installation instructions are packed with each shipment. Available in advance upon request or online at www.bobrick.com.

GUARANTEE:

Bobrick toilet partition panels, doors and stiles are warranted for a period of 25 years against breakage, corrosion, delaminating and defects in workmanship from the date of purchase for the periods set forth (this limited warranty is conditioned on the toilet partitions being properly installed, used and serviced). Any products returned to Bobrick under this guarantee will be repaired or replaced at no charge.

SPECIFICATION:

Compact Grade Laminate (CGL) shall be _____ (insert configuration OB, FC). Stiles, panels and doors shall be constructed of solidly fused plastic laminate with matte-finish melamine surfaces, colored face sheets, and black phenolic-resin core that are integrally bonded; and covered by a 25-year limited warranty against breakage, corrosion, and delamination.

Stiles and doors shall be 3/4" (19mm) thick and feature Gapless Privacy interlocking edges; panels shall be 1/2" (13mm) thick. All units shall meet ICC, NFPA Class B, ASTM E-84 Interior. Wall and Ceiling Finish Classification: flame spread 30, smoke development 55. Stiles shall have leveling device that is concealed by a one-piece, Type-304, satin-finish stainless steel shoe that is 4" (102mm) high. Stiles, panels and doors shall be _____ (insert color name and number from current Bobrick Catalog). Headrails for overhead-braced compartments shall be anodized aluminum with satin finish.

Occupancy indicator latch to be Bobrick (#1002612). Toilet compartment door is locked from inside by sliding door latch into keeper. A locked compartment may be opened from outside by rotating slotted center on the indicator to disengage latch from keeper. Combination coat hook and bumper reduces damage from door inside compartment.

NOTES:

- Where water from showers or hose-down cleaning comes in contact with partitions, Bobrick CL partitions are recommended.
- Wall backing is required to secure the mounting brackets of panels, stiles, and wall posts. For suggested wall backing, see Bobrick Advisory Bulletin TB-46.
- Bobrick stainless steel partition-mounted washroom accessories are available for mounting in panels between two compartments. See current Bobrick Restroom Accessory Catalog for description of accessories. Cutouts in panels can be pre-cut for Bobrick models at factory if location and size of all cutouts and Bobrick model numbers are furnished at time of order.
- When the cam has been set at the desired free resting position, "either closed or open" the top of the affixed components will be aligned.

OVERHEAD-BRACED (OB)

⊕ These mounting points require wall backing. Bottom of door corners are notched to clear shoes.
For suggested backing and mounting methods refer to Bobrick Advisory Bulletin TB-46 on Bobrick.com.
